Market Advisory for Upcoming U.S. Presidential Election

As you may be aware, on November 08, 2016 there will be vote casting for U.S. Presidential Election. During this event, it is expected that the market may experience uncertainty and volatility in all international contracts.

In view of the above, you are kindly requested to observe the following during the November 07 to 11 week:

1. Ensure excess / sufficient liquidity in their proprietary & client accounts
2. Consider raising auto liquidation thresholds and monitoring thereof
3. Monitor "Stop Orders" as due to volatility the orders may remain unfilled
4. Advise all clients of the increased risks within the period leading up to, during and after the Election as the volatility may impact all international contracts

Moreover, please note that the Exchange is working on its risk management strategy for the event, which will be communicated in due course.
