Last Trading Day	Contracts will expire on the 3 rd Wednesday of the respective month. If the 3 rd Wednesday is an Exchange holiday the following business day will be the last trading day.

Notice Period

50 Tola Gold futures contract is deliverable; However, Physical Delivery will be dependent on Intention Matching between Sellers and Buyers.

Sellers and Buyers with open positions who intend to make and take delivery will be required to inform the exchange two trading days prior to the last trading day (E-2, where E refers to the expiration day) of their intention to deliver along with the quantity being tendered for delivery.

Open positions where intentions have been received will be matched randomly by the Exchange on the date of the expiration [E] of the contract and will be bound to settle by physical delivery in three working days [excluding Saturdays, Sundays and Public Holidays] from the date of expiration of the contract [E].

In the absence of any notification received by the Exchange from Sellers and Buyers with open positions at expiry, all such positions at the expiration of the contract will be cash settled at the final settlement price as determined by the Exchange.

Once Exchange has communicated final delivery obligations, any failure to deliver by the Seller or taking delivery by the matched Buyers will result in a penalty prescribed by the Exchange.

Delivery Period

The first delivery date shall be the first business day of the contract month and the last delivery day will be by 3.00 pm on the second business day after the last trading day or expiration of the contract.

Daily Settlement Price

The Daily settlement price shall be the consensus price determined during the closing session. Exchange can also determine the daily settlement price in the manner and the conditions described herein or in such other manner as may be determined by the Exchange from time to time:

- Value Weighted Average Price
- Theoretical Futures Price

Theoretical futures price will be calculated as International Spot Price* $\{e^{(r*t)}\}$, where r = linear interpolation of 1, 2 and 3 - month Karachi inter bank offer rate (KIBOR) as disseminated by Reuters, and t = time remaining till maturity. The International Spot Price will be the mid price of Gold prevailing in the international spot market, as displayed on Reuters, at the time of end of daily trading of Gold Futures contract and converted into local Rupees/Tola units based on average Offer rate of PKR/USD obtained from five different money changers or as determined and notified by the Exchange.

Final Settlement Price

Final Settlement Price will be determined by the Exchange at the maturity of the Contract. and will be based on the international spot mid price of gold, as displayed on Reuters at the time of

expiry of the contract and converted to Rs/ tola by the average offer rate of PKR/USD obtained from 5 different moneychangers or as determined and notified by the Exchange.

**Freight, Taxes &
Duties etc**

Freight, all duties, taxes, etc. up to the point of sale of physical Gold will have to be fully paid by the Seller to the concerned authority and all documentation fully complying with Exchange procedures should be completed before delivery of Gold to the Exchange approved Logistic Agency. After submission and subsequent verification by the Exchange, matched Buyers will be required to pay freight and taxes incurred by the Sellers as part of their Final Pay-in Settlement Amount.

Price Fluctuation

Maximum price fluctuation is **+/- 5%** of the last trading day's settlement price or as determined by the Exchange.

Position Limit

200 contracts per Broker (including proprietary and all its clients) and **50** contracts per Client and Broker's proprietary position.

At any point in time a Broker shall not have outstanding position of more than the number of contracts as specified by the Exchange, collectively on his own and on account of his Clients. If such a position is acquired in different maturity contracts of the same commodity, his outstanding position in different maturity contracts shall be added together, **and not netted off**, for the purpose of such outstanding position limit. All violations of position limits will also attract fines as defined by the Exchange.

Margin Requirement

The amount of margin payable by Brokers in respect of their outstanding contracts in Gold shall be determined by the Exchange. Exchange will amend margin requirement whenever necessary or required due to changes in market conditions and risk management principles.

Margins on all open positions in Gold futures contracts with different maturities shall be on the basis of gross positions.

Initial Margin

Initial Margin will be based on VaR methodology at 99% Confidence Interval over a 1-day Time Horizon, rounded up to the nearest 0.25%.

Delivery Margin

Delivery margin may be imposed in increments of 5% per day on all open positions starting at two days prior to expiration [E-2], such that delivery margin payable on last trading day will be 10%. Delivery Margin shall replace the Initial Margin. However, delivery margin will be applicable only on those open positions for which intention to make or take delivery would have been received.

Special Margin

Exchange reserves the right to impose special margins for short duration of time during periods of increased or excessive volatility. Special margins will be computed by increasing the

look-ahead period, reducing sample size, or by changing any other parameters used in the VaR methodology.

Spread Discounts

Positions in two offsetting NCEL 50 tola Gold Futures Contract with different expirations will be eligible for a spread discount.

Spread Contracts

NCEL may list spread contract on the 1st of every month through final expiration being the 3rd Wednesday of the Month.

Further Regulations

This contract shall be subject, where applicable, to the Regulations of the National Commodity Exchange Limited.
