Based on these technical difficulties, effective September 04, 2015 onwards PMEX, under General Regulations 2007, will be restricting any **new position entry** in ETS in the following futures contracts and only squaring up (closeout) of any outstanding positions (open interest) will be allowed at the client's discretion.

2.	All other contracts and COTS	Restriction not imposed. Market participants may enter new position as well as close out any existing positions.

To ensure that no such issues arise again in the future, PMEX is looking for a permanent solution to this problem and expects to resolve the same in the next few days. We will keep you updated as and when there is progress in the matter.
